CONDITIONS OF SALE.

FIRST. The highest bidder to be the buyer, and if any dispute shall arise between two or more bidders, the lot to be immediately put up again and re-sold.

SECOND. No person to advance less than one shilling under one pound at each bidding, and so on in proportion.

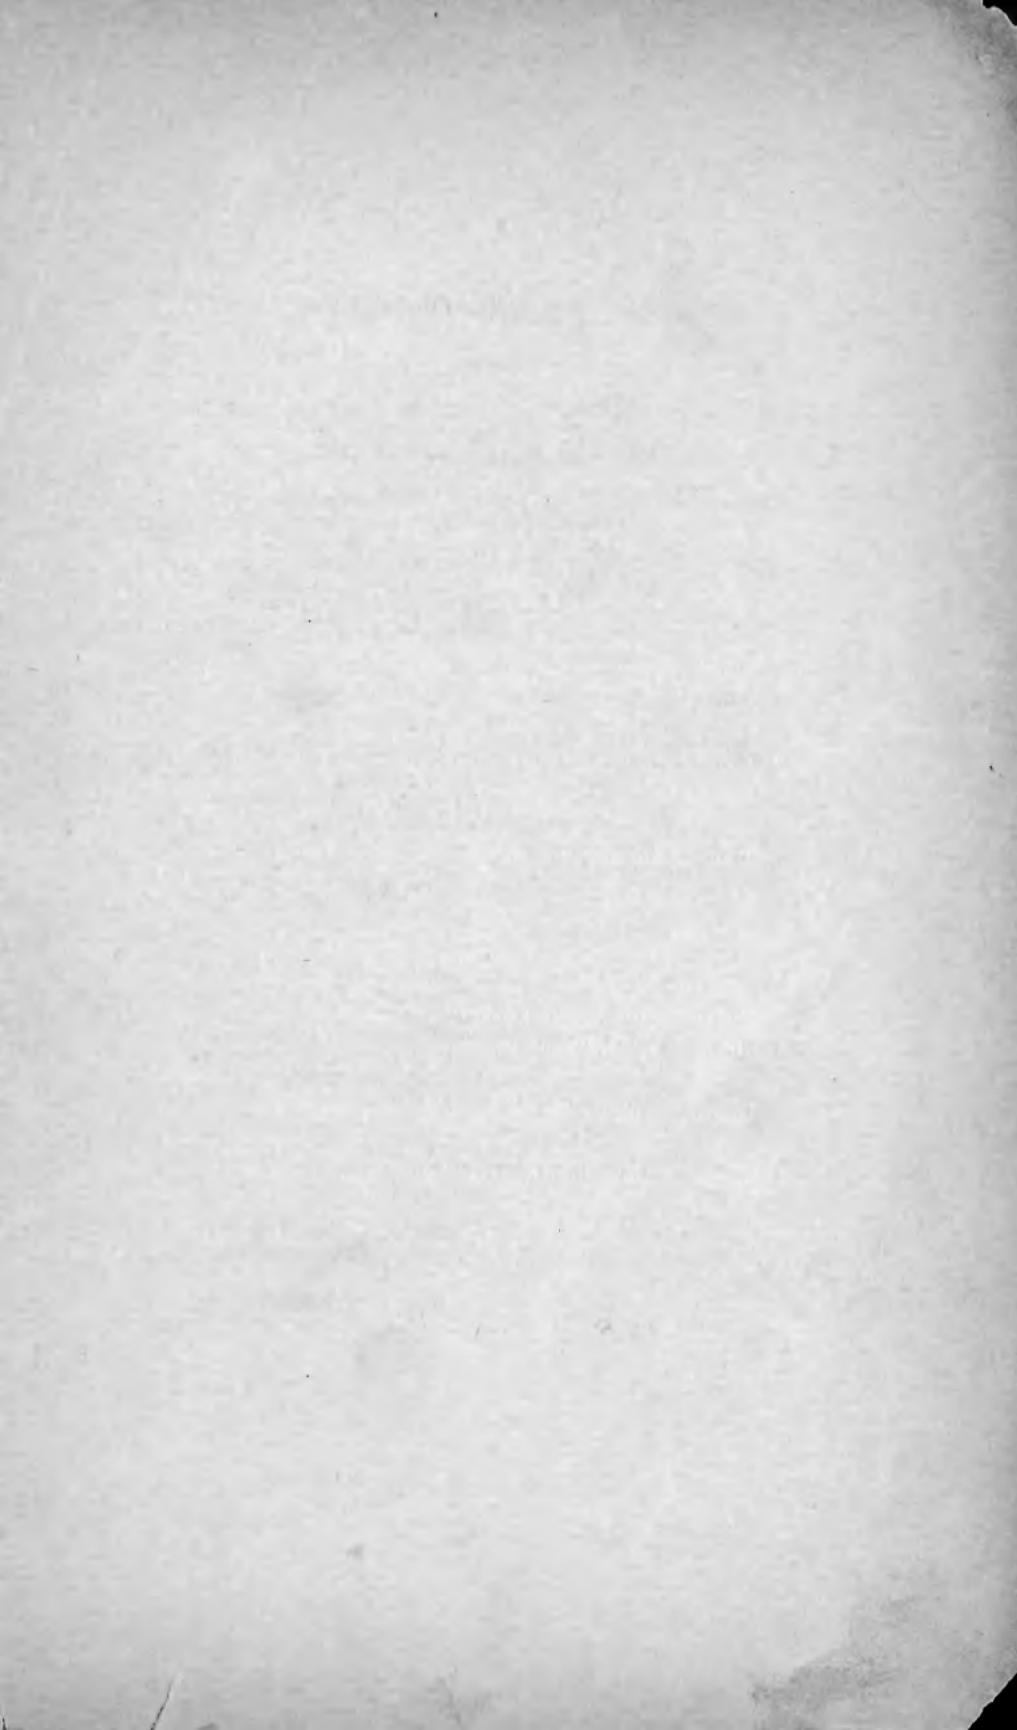

THIRD. The purchaser shall give in his name and place of abode, if required, and pay down immediately 25 per cent. on the amount of his purchase as a deposit, *and the remainder must absolutely be paid on or before the delivery.*

FOURTH. The Scrupulosity with which Mr. HAWORTH distinguished the British specimens in his Collection by a blue label, (except in the Staphylinidae, the Foreign specimens of which are all otherwise distinguished), is well known. In the following Catalogue the rare British species are also indicated, and it is presumed that they are correctly named and noticed therein; but the lots are to be taken away with all faults and errors of every description, as marked in the various drawers, and whether correctly named or not, at the buyer's expence within **TWO** days from the last day's sale.

LASTLY. The lots must be cleared according to the third and fourth conditions, in default of which the seller shall be at full liberty to re-sell the said lot or lots, the deposit money shall be forfeited, and the deficiency (if any) attending such re-sale together with the expences attending the same shall be made good by the defaulter at this sale.

Gentlemen who cannot attend the Sale, may have their Commissions faithfully executed by their most obedient Servant,

JOHN C. STEVENS.
